

HOW TRANSPARENT IS BUSINESS IN LITHUANIA?

2021

Assessment of
the Largest Companies

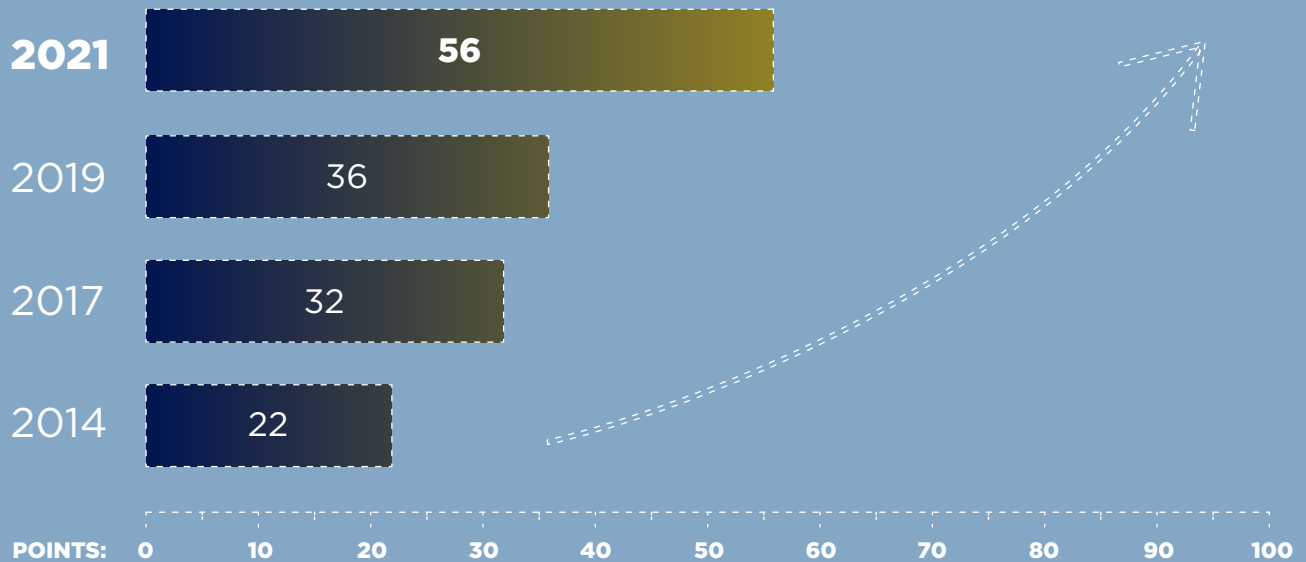

Transparency International Lithuania

analysed each corporate website in search of publicly available information on the company's anticorruption programme, organizational structure and financial reporting.

The report evaluates the largest companies in Lithuania based on their income records for 2020.

40

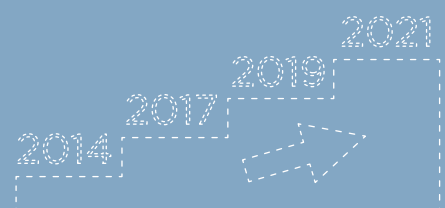

Over the past 7 years, the largest companies in Lithuania have become more transparent.

In 2014, their average score was 22 points (out of 100), whereas in 2021 it was 56.

22

56

Two-thirds

of companies disclose their membership in business associations.

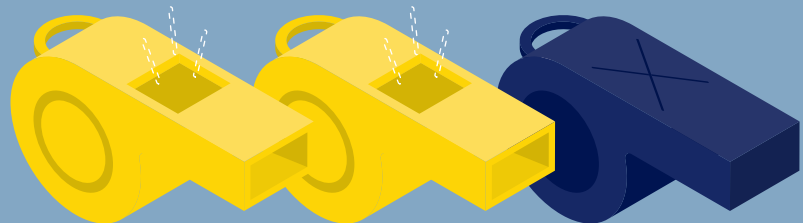

5 companies

received a score of 0 - meaning they provide no substantial information regarding their corporate transparency.

Two-thirds

of companies provide their employees with an opportunity to report wrongdoing.

This report was produced by **Transparency International Lithuania** as part of the Integrity Pacts' initiative. The initiative is funded by the European Commission. The content of companies' websites was assessed during September-December 2021.
